THIEF CUTS HAIR FROM MRS. HOWE IN PULLMAN CAR

Aunt of Maysville Woman Has Unusual Experience in Pullman

"Oh, auntie, where's all your pretty hair?" asked Adelcia Spence, 4 years old, when she awakened Thursday morning in a pullman car on the Louisville & Nashville Railroad. Mrs. Waters Howe, Orlando, Fla., whom the child addressed, then discovered that her eighteen-inch blonde braids had been cut off.

She also discovered that her mesh bag containing a small amount of money, was missing, and that her gold wedding ring had been taken from her finger.

Mrs. Howe, notified the conductor of the train and a search of all the coaches failed to reveal any evidence of her hair, money and ring. She and her niece were enroute from Jacksonville, Fla., when the robbery was committed.

"When awakened my head hurt. I believe the robber chloroformed me," said Mrs. Howe at the home of her sister at Ft. Thomas whom she came to visit.

"When I discovered my hair had been cut off a general search of the train was made. Clippings of my hair were found on the pillow of my berth. "The conductor found a towel that apparently had been saturated with chloroform." An empty bottle also was discovered.

"Luckily my diamonds and \$100 in money which I had secreted, were overlooked by the robber. It is strange that other women in the coach were not robbed as they also wore diamonds."

Mrs. Howe is a sister of Mrs. Ben Poyntz and an aunt of Mrs. James B. Wood, of Forest avenue. She spent the summer here in 1918 and has many warm friends here.

At 3 o'clock Saturday some one will get the Cedar chest. We expect you here. Merz Bros.

Our showing of ladies handsome umbrellas, all colors, surpasses any ever shown here. We engrave and enamel the handles to match color of silk or mounting "no charge." Murphy, the Jeweler. 9Dec1f

Mrs. Geo. Shirley and son, Everett, and Mrs. Lizzie Mason of East Second street, are spending several days in Cincinnati.

CITY MISSION NEEDS MORE HELP FOR POOR

Mrs. L. Fountaine, Superintendent of Local Institution, Says Much Help Is Needed at This Time.

Mrs. L. Fountaine, Superintendent of the City Mission, under whose direction and guidance that institution is now doing a great and good work among the poor of the city, has just completed a very successful campaign for funds with which to purchase a piano for the Mission Home. This piano has been installed at the Mission Home and Miss Fountaine is now directing her attention to the immediate needs of those who look to the Mission for help.

Clothing, coats and shoes are the most needed articles at this time. Mrs. Fountaine explains, and she says that the Mission can use any number of these articles for school children.

The fund for the Mission's annual Christmas fund is steadily growing the local lodge of Red Men being the last donors. Contributions to this fund will be gladly received from any one and merchants are especially asked to donate anything that will help fill the Christmas baskets.

Only a short time, then Christmas. Make your selections early. Will reserve any article until Christmas. Chas. W. Thaxel & Co. 8Dec1f

Ninety-nine people out of 100 say that Merz Bros. have the prettiest display of Christmas goods in town. The other one is dumb, but no doubt thinks it.

NOTICE.

Oscar Judd has received a carload of Red River Early Ohio potatoes, placed on Limestone track. Bargain price \$3.25 a sack. Also plenty of apples at \$4.50 per barrel, or \$1.65 per bushel. Onions at \$2.25 per hundred. Will deliver one bushel or more to any place in Maysville. Phone orders to Middleman Transfer Co., 228, or my residence phone 233. 7Dec1f

RED MEN DONATE TO CITY'S POOR.

The local lodge of Red Men has made a donation of twenty-five dollars to the poor of the city through the City Mission for which the Mission officials extend their thanks. Others should contribute to this most worthy cause.

Anything you want in cut glass, Sheffield silver, or Sterling silver, we have it. The prices will interest you. Open evening. Murphy the Jeweler. 9f

NEW CARBURETOR TEST SHOWS GAS SAVED BY USE

New Automobile Attachment Tested This Morning Shows Money Saving to Automobile Owners.

The following statement of the results obtained in a test of the Automatic Steam Carburetor this morning would indicate that there has been something developed which will greatly decrease the cost of operating automobiles. The Automatic Steam Carburetor referred to is a device which takes water from the cooling system of the car and converts it into steam which is taken into the intake manifold with the gasoline. The addition of this steam gave a 30.3 per cent. increase in mileage per gallon of gasoline in the test made this morning. It has given similar results on other cars in Maysville which have been tested during the past week. The roster of cars having the steam carburetor including Cadillac, Studebaker, Hupmobile, Essex, Chandler, Hudson, Saxon, Buick and Ford. Mr. W. B. Smoot, has one on his Moline tractor also.

The standard guarantee given with the Automatic Steam Carburetor is 25 per cent. increase in mileage per gallon of gasoline, and the elimination of 90 per cent. of the carbon.

Mr. George Longmecker has the state agency for the device and Frank Carpenter and George Kirk have the agency for Mason, Lewis, Fleming-Bracken and Robertson counties.

Official test Automatic Steam Carburetor, December 10, 1920, Maysville, Kentucky.

Car tested, Buick, 4 45 six cylinder. Owner, M. C. Kirk. Driver, M. C. Kirk. Observers, J. J. Altmeyer, John W. Matthews, Dorothy Hockaday, J. G. Saunders, George Kirk. Total passengers carried, six.

Route traveled — Start from West end of Second street, east to Wall street, south to Third street, east to Bridge street, to Second street, east to Main street, south to alley, east to Second, west to end of test. Both tests starting from same point. Amount of gasoline used in test, one quart. Adjustment made on car; vacuum tank feed line disconnected; vacuum tank drained; engine run until gasoline in carburetor exhausted. One quart of gasoline then poured into vacuum tank.

Object of test—To determine increase in mileage obtained by use of Automatic Steam Carburetor.

Result of Test — Miles per quart without using steam carburetor 3.3, or 13.2 miles per gallon.

Increased mileage in per cent. obtained by use of steam carburetor 30.3 per cent.

Saturday will be Cedar Chest Day, Double Stamps, Christmas Shopping and Bargain Day at Merz Bros.

GAME TONIGHT TO BE QUITE INTERESTING.

The game of basket ball at the High School gymnasium this evening between the Maysville High School team and the team from the Flemingsburg High School promises to be quite an interesting one and many are expected to attend. Maysville people should patronize High School athletics more than they have done in the past.

Mrs. W. F. Steele returned Thursday from a several weeks visit with relatives in Washington, D. C.

LITTLE VICTIM RECOVERS.

Although she will carry a scar where she was struck by the ax in the hands of her mother, Hazel, the two-year-old daughter of Mrs. May Tomlin, is reported recovering rapidly at the home of her grandmother, Mrs. Tomlin, on Brush Creek in Adams county, Ohio. The child was struck below the month, when the mother set upon her three little tots, killing two brothers and then ending her life by drowning in Brush Creek. The surviving daughter is with her father, William Tomlin, and grandmother.

COAL.

Just received a large supply of river coal, Raymond City, Plymouth; also several cars of Yellow Jacket block. Geo. Mitchell Coal Co. 8Dec1f

BASKET BALL.

Maysville High School vs. Flemingsburg High School at High School auditorium tonight. Game starts promptly at 7:30. Admission 35 and 50 cents.

We have made the price an object if you want a nice diamond ring our low price will interest you. Open evenings. Murphy, the Jeweler. 9Dec1f

RAIN DOES NOT HINDER LARGE CROWD AT REVIVAL

Good Sized Audience Hears Rev. Overley's Sermon on "Power For Service."

"Power for Service" was Rev. Overley's theme at last evening's revival service. Despite the rain the attendance was good, and all were well repaid for coming. No one could hear such a powerful sermon without either being touched for a better life or by refusing the "power for service" become more hardened. Before the sermon the evangelist sang a solo "The Heart That Was Broken for Me" which was a fitting preparation for the sermon.

Service again this evening at 7. There will be no Saturday service as Rev. Overley must be in Newport for Sunday. He will, however, return Monday and will preach every evening next week and the next Sunday. Those who enjoy plain gospel preaching, and love to be in the spirit of a revival should avail themselves of the blessings of these meetings.

Monogram belt buckles, Waldemar buckles made to order in gold or silver. If you need something of that kind now is the time to place your order for Christmas. Chas. W. Thaxel & Co. 8Dec1f

PATROLMAN RESIGNS.

City Patrolman Carl Carpenter advised Mayor Thomas M. Russell Thursday that he would not qualify the first of the year. He gave as his reason for not accepting the position to which he was re-elected that the position required too many hours of service for the amount of the salary.

Santa Claus says: "I'm filling my bags at Merz Bros. Store, for their prices are lowest this side of the North Pole. The values remind me of the old days when I drove reindeers instead of an aeroplane." You had better stock up, too.

EAGLES CERTAIN OF ANOTHER BIG CLASS.

At the weekly meeting of the local order of Eagles held Thursday evening it became known that there would be several more applications for membership before the first of January when the present special dispensation closes. It will therefore be necessary to initiate another large class of candidates within the next few weeks.

Select one of those beautiful diamond solitaire or diamond cluster rings. Others have made their wives and sweethearts happy. Why not you? See the low prices at Murphy, the Jeweler. 9Dec1f

FAIR COMPANY IS SUED FOR DAMAGES BY INJURED GIRL

Echo of Amphitheater Collapse Is Ten Thousand Dollar Damage Suit Filed In Bracken Against Germantown Fair Company.

As an echo from the collapse of a section of the Germantown Fair amphitheater during the last meeting at that famous old fair grounds, suit was brought in the Bracken Circuit Court at Brooksville today by Hon. A. D. Cole, of this city, and Senator W. A. Byron, of Brooksville, for Nellie Maude Haley, through her next best friend, her father, W. M. Haley, seeking damages in the sum of ten thousand dollars from the Germantown Fair Company.

Miss Haley was probably more seriously injured than any who fell through the amphitheater where a great crowd had congregated about the Maysville Boys' Band which was furnishing music. In her petition it is set out that Miss Haley suffered a broken foot so as to make her a permanent cripple. She is also said to be suffering from traumatic neurosis. The petition sets out that she was confined to her bed for a long time and is injured for life.

The plaintiff charges that the accident was caused by neglect of the officials and agents of the fair company and damages in the sum of ten thousand dollars is asked.

The Germantown Fair Company is a stock company and stock is owned by many Maysville and Mason county

EARLY REPORTS SHOW RED CROSS SUCCESSFUL

Fourth Red Cross Roll Call Reports Show Many Are Supporting Great Institution.

One hundred and eight meetings with audiences totaling 44,376 were addressed by members of the Speakers Bureau, Lake Division, American Red Cross, during November up to Thanksgiving Day.

These gatherings were in the interest of the Fourth Roll Call which officially closed November 25th.

While Ohio leads in total meetings—59—the number of persons attending these gatherings falls considerably short of Indiana's figure. Audiences in Ohio aggregate 17,077 as against 25,424 at 40 meetings in Indiana.

At nine meetings held in Kentucky 1875 persons heard the message of the Red Cross and the vital relation borne to it by the Fourth Roll Call.

These figures establish a record for Lake Division and indicate that the final totals for the Roll Call will easily reach the division's roll, 1,500,000 members.

IVORY. IVORY.

We have anything you want in this line, bought at a low price and sold at a low price. We engrave and enamel ivory without charge. Open evenings. Murphy, the Jeweler. 9Dec1f

people as well as Bracken and Robertson county people. Suit was brought in Bracken county as that is the residence of the President of the corporation.

MAYSVILLE IS LEFT OUT OF KENTUCKY BASEBALL LEAGUE

Old Kentucky Baseball League Is Organized With Maysville Out of the List of Teams.

Louisville, Ky., Dec. 10. — The Old Kentucky Baseball League was organized at a meeting held here Thursday by representatives from Paducah, Hopkinsville, Lexington and Owensboro. Dr. Frank M. Bassett, of Hopkinsville, was elected president and secretary, and Mr. Weathers, president of the First National Bank, of Hopkinsville, treasurer.

Other cities requesting berths in the old Kentucky league are Knoxville, Tenn., Vincennes, Ind., Jackson, Tenn., Ashland, Ky., Bowling Green, Ky., Columbia, Tenn., Cairo, Ill., and Henderson, Ky. Another meeting will be held January 20 at Bowling Green when the personnel of the league will be finally decided upon.

The season will open May 10, and close on Labor Day.

A feature of the league will be that no player will be eligible who has had previous professional experience. In other words, the league proposes to be a professional training school for ball players. Each city in the league will be required to post \$1,000 as a membership fee. The salary limit for each club will be \$1,800. Those at the meeting were J. J. McCloskey, Louisville, representing Lexington; Mayor F. W. Katterjohn, Paducah, F. H. Bassett, Hopkinsville, and W. A. Ling, Owensboro.

OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

TARIFF A NATIONAL ISSUE.

"The famous remark by General Hancock that the tariff is a local issue seems likely to be revised in view of the nation-wide demand at present for the enactment of a protective tariff law," declares the Republican Publicity Association, in a statement issued by the President of that organization, Hon. Jonathan Bourne, Jr. "For a great many years the North was the only section of the United States advocating a protective tariff. The South was utterly opposed to the principle of protection. In recent months, however, there has been an insistent demand not only among manufacturers but among farmers—not only among the people of the North but among the people of the South—for the enactment of a law which shall impose protective import duties upon commodities of practically all classes.

"Just now the farmers of the West are holding conferences and conventions and adopting resolutions demanding an import duty on grain, dairy products, live stock, and the like. Ten million bushels of wheat imported from Canada in a single month at a time when the wheat growers of the United States are unable to sell their grain for a price that will cover the cost of production; immense importations of butter from Denmark, larger importations of meat from Argentina, and offerings of Australian and Argentine wool depressing the market in the United States, have impressed the farmer with the need of an 'America First' policy which shall insure to the American producer at least an even chance in his home market.

"Now we see also the shutting down of textile mills along the Atlantic Coast and in those Southern States which have in recent years become manufacturers of cotton goods. Coincident with this curtailment of production and consequent reduction of employment we read statistics of imports showing that in the nine months ended with September we bought foreign manufactured cotton goods to the value of \$113,000,000 as compared with \$29,000,000 last year. The increase is not only in value but in quantity, for in the nine months of the year 1920 our imports of unbleached cotton were 50,000,000 yards as compared with less than 7,000,000 yards in 1919. Of bleached cloth there were imported 21,000,000 yards as compared with 4,000,000 yards last year. Of dyed-in-the-piece and printed cloths there were importations of 42,000,000 yards as compared with 7,000,000 yards in the same period of the previous year. In the aggregate of all the various kinds of cotton cloths, there were imported in the first nine months of 1920, over 122,000,000 yards as compared with 22,000,000 yards in the corresponding period in the year before, an increase of approximately 100,000,000 yards or nearly 500 per cent.

"There are facts, not theories. It must be perfectly clear to any student of economics that if we buy cotton goods in Europe there must be a corresponding diminution of production in the United States, and if there is diminished production in the United States there must be fewer wage earners, less money in circulation, diminished buying of various commodities used by people from day to day, and lessened activity in all kinds of business and industry.

"No one contends that we should discontinue all buying abroad. What the farmers of the West, the peanut growers of the South, the livestock men of the Southwest, and the manufacturers of the Eastern states are contending for is an import duty which shall amount to at least the difference in cost of production at home and abroad so that the American producer may compete on an equality with his foreign competitor.

"Agitation for restoration of a protective tariff, coming as it does from all sections of the country, makes the tariff a national rather than a local issue."

KEEP COLLEGES OUT OF POLITICS.

According to reports, Williams College is to organize an Institute of Politics to promote a better understanding of international problems and relations. Lord Robert Cecil, prominent in the work of the league of nations committee at the peace conference, is to be invited to address the institute. Politics is a dangerous subject to teach in the schools. It is far better to have a student well grounded in economics, both foreign and domestic, and let him form his own political conclusions.

GOMPERS FOSTERED FOSTER.

W. Z. Foster, the radical coddled by Mr. Gompers and put in charge of the steel strike of last year, is reported to be organizing the clothing workers into a rival union to the American Federation of Labor. Gompers has only himself to thank for the prominence that Foster now enjoys. If it had not been for the encouragement given the syndicalist by the labor chief, he would never have been able to exploit himself and stimulate the radical element in this country.

REPUBLICANS PLAN ECONOMY.

Congressman William R. Wood, of Indiana, chairman of the subcommittee in charge of the legislative appropriation bill, which provides the salaries of most of the government employees in Washington, is reported as saying that \$36,000,000 will be cut from the administration estimate of \$136,000,000. Part of the economy would be the reduction of the force of clerks from approximately 92,000 to 72,000.

WHY BRITAIN NEEDS US.

It is estimated that the British flag now flies over 955,850 square miles of territory more than it did in 1914. That is equal to about one-third the area of the United States. The American flag flies over no additional territory. There we have one of the reasons why Great Britain is so solicitous of her control over the league of nations, and why this country has no special interest in what the league may do.

CHRISTMAS KODAK

It's a gift no sooner opened than it's used.

We don't mind the Christmas rush except that it causes inconvenience to you and the rest of our customers—and, of course, we don't like that. Shop early in the month, early in the day—that's pretty good advice—but of course we're glad to see you any time.

Brownies From \$2.86 Up

J. T. KACKLEY & CO.

INDUSTRIAL MACHINERY
IN FRANCE AND BELGIUM.

"Europeans have overestimated their capacity for rehabilitating their industries." "American cooperation applied to the reconstitution of essential producing industries would provide a considerable market for American industrial machinery and at the same time would insure raw materials and more work for European machinery factories." "More needs to be done to gain the confidence of European industrialists."

The foregoing are the expressed opinions of Trace Commissioner Charles P. Wood in a report on industrial machinery in France and Belgium just published by the Bureau of Foreign and Domestic Commerce of the Department of Commerce.

he report is published in answer to the many inquiries received in the Bureau of Foreign and Domestic Commerce from American machinery manufacturers, engineers and contractors concerning the probable requirements of European countries that would seek to rehabilitate their industries and resume their former status in the peacetime markets of the world. Every important industrial center and such other places as would contribute to a broad estimate of the situation were visited by Mr. Wood during the course of his investigation.

The report discusses industrial conditions after the war. The industrial needs of the two countries are classified for the convenience of the manufacturer and exporter. Application of American methods, credits and trade methods generally are covered at some length.

The publication is known as Special Agents Series No. 204 — "Industrial Machinery in France and Belgium." Copies can be purchased for 10 cents.

from the Superintendent of Documents, Government Printing Office, Washington, D. C., and from the district and cooperative offices of the Bureau of Foreign and Domestic Commerce located in different cities.

ARREST SEEN IN MURDER
OF "OLD PEPPER" GUARD.

Lexington, Ky., Dec. 9. — An additional reward of \$1,000 has been added to the \$300 offered by Gov. Edwin P. Morrow for information leading to the arrest and conviction of the gang of men who shot and killed William R. Anderson, a warehouse guard, at the Old Pepper Distillery, December 2. Joseph Wolf, Chicago, owner of the distillery, offered it. Mr. Wolf arrived here this morning from Chicago. Private detectives have been here for the past several days working on the case and several arrests are expected shortly, it was announced today.

The nature of the clues was not divulged.

READ CAREFULLY

Why Should Tobacco Be Graded By the Growers at Home?

FIRST—Because the Warehousemen cannot get enough experienced Tobacco men, they have to employ men who work at other trades, such as Carpenters, Painters and Engineers for nine months in the year and never see tobacco until it comes on the Warehouse floor.

SECOND—A Load of Tobacco with all the grades separated carefully can be unloaded and put on Baskets at the Warehouse door in one-half the time, and the Grower will get back home much quicker than ever before.

THIRD—The Manufacturers' Buyer has argued for years, that Tobacco should be graded by the Grower, not by inexperienced Labor at the Loose Leaf Warehouse.

FOURTH—The large Loose Leaf Market, such as Lexington, never have graded Tobacco for the Growers.

FIFTH—It does not save the Warehousemen any Labor, as they will continue to furnish men to unload each wagon as heretofore.

SIXTH—Who has always gotten the HIGHEST PRICE for their Tobacco? The Grower, who takes the most pains stripping, who sorts it himself, brings it to the Market, just as he wants it put on the Basket and sold.

SEVENTH—We are glad to say, We will have more buyers than ever. We will keep Tobacco moving quicker, and give Growers better service, and will be as always the Market of Northern Kentucky and Ohio.

CHILDREN'S FUND IS ACTUALLY SAVING LIFE.

American Relief Administration Is
Doing a Great and Good Work
Among the European
Children.

Chicago, Ill. — Telling statistics showing that Herbert Hoover, through the American Relief Administration European Children's Fund of which he is chairman, is actually saving the child life of Eastern and Central European countries have just been received from the cities of Lodz and Krakow in Poland.

In the city of Krakow the vital statistics show for the year ending July 1, 1919, 3,343 births and 1698 deaths, of children of 15 years and under. The following year during which the child-feeding stations were in operation there and the children and nursing mothers were receiving the supplementary American meal provided by the American Relief Administration the number of births increased to 4,864 but instead of a corresponding increase in the number of deaths of children there was an actual decrease, the child mortality under 15 years having dropped to 1331.

In Lodz the figures are less striking but still significant. In the ten months preceding the beginning of the child-feeding under American auspices on May 1, 1920, the number of births tallied 4,515 and the number of deaths of children of 15 and under, 2,593. For the ten months from July 1, 1919 to May 1, 1920, the number of births had more than doubled but the number of child deaths had not. The actual figures for that period are births 9,883, and the deaths 4,109. Had the ratio of births to child deaths that prevailed the corresponding ten months of the previous year been maintained for the ten months ending in May, 1920, the number of deaths would have been not 4,109, but 5,423. Last year one should think from the above that the need of the relief work among the children of Poland has passed and

that that country is now on a helathy footing a brief study of the following statistics furnished by the health department of the city of Warsaw will demonstrate the fallacy of the conclusion:

In 1914 the years of the outbreak of the war the deaths of children under one year of age for the city of Warsaw numbered 1640. In 1919 the number had risen to 2809, an increase of more than 70 per cent. In the same period the number of children of ten years and under dying from tuberculosis had increased, from 480 to 1001, an increase of 125 per cent. Last winter the American Relief Administration fed upwards of 1,300,000 children in Poland alone and this year the need is as great if not greater, for a large portion of the food supplies upon which the Poles had depended to carry them through the winter was destroyed during the invasion of the Bolsheviks who wasted one of the most fertile sections of the country just as the crops were in the process of harvesting.

Mr. Hoover has issued a public appeal for funds to carry on the child-feeding work in Poland and adjoining countries. He estimates that \$23,600,000 will be required for this purpose and if that amount is not forthcoming the American Relief Administration will be forced to abandon many of its kitchens and leave the destitute and undernourished children to their fate.

Women are to contest for all offices to be filled at the coming municipal election in Toronto.

INTELLIGENT UNSELFISHNESS.

Christmas gifts are neither more nor less than translated thoughts. A selfish or a careless Christmas gift is worth no more than a selfish or a careless thought to the receiver, no matter what its cost in money may have been. That is why many a youngster and many a grown up also, finds Christmas day a time of bitter disillusionment and disappointment.

Presents bought in selfish hope of return, or in careless fulfillment of obligation, or even for the fleeting pleasure of the moment can never bring real appreciation to the receiver or real pleasure to the giver. For they lack the essential elements of "good will" and thought for the future. None of us has had so much that we do not desire those dear to us to have more. None of us has lived so successfully that we do not desire others to avoid the mistakes we have made. The successful Christmas gifts are those which are based not on the selfish pleasure of the moment but on thought and care for the future. None of us knows the future, but each of us hopes for the future for those near to us.

Scarcely a Christmas gift is dispatched in this country that is not accompanied by at least a perfunctory hope for the future. But it is possible to give gifts which carry not only a hope but an assurance for the future, gifts that develop character, that inspire success that promote independence. You can give your youngsters a habit that is worth more than money. You can give them a training that should be a part of the equipment of every American. You can give them a protection against misfortune which will last the mail their lives, and they will like their presents.

What is more, you can make your presents cost what you will, and you can buy them at any postoffice. All you need is to ask for Government Savings Securities. No matter how slim or how bulky your purse, they will fit it. No matter if you can afford no more than a 25 cent Thrift Stamp pasted on its card you can do as much toward giving your boy or girl the habit of thrift and safe investment, as the man who gives his children a \$100 Treasury Savings Certificate. You can start your youngster on the way to financial independence and safety with a \$5 War Savings Stamp as well as with a \$1,000 Liberty Bond.

When you give these sound securities you put love and thought and good will into your gifts as well as money and you give happiness for the future as well as for the present.

No matter what concrete form they take, your thoughts are all you can give for Christmas. Think it over and buy government savings securities.

SPAIN SEEKS PERMANENT EXHIBITION OF HER INDUSTRIES.

Mr. Manuel Ferrando who has been twice a delegate from the Spanish Government to exhibit in San Francisco and also in St. Louis and Chicago is negotiating for the establishment of a permanent exhibition of the Spanish industries in the United States. Mr. Ferrando in an interview with a representative of the Spanish American News Service states that a permanent exposition of the Spanish industries in the United States will be of great importance in as much as Spain is producing many articles that are in great demand here and which can be bought 50 per cent. cheaper than they can be manufactured here.

NEGRO HELD AT DANVILLE AS SUSPECT IN ATTACK.

Danville, Ky., Dec. 9.—Suspected of having attacked the wife of J. B. Klumper, farmer, near Erlanger, Ky., John Mitchell, 30 years old, negro, was arrested on a Southern Railroad passenger train here. He answers the description of the man who beat the woman into insensibility and stole \$50 from the house.

The bouquets thrown to Mme. Patti on the occasion of one of her farewell appearances in Paris filled eight carriages.

JUSTICE FOR INJURED ALIEN.

Workmen's compensation laws are probably adequate in number and scope, but for an alien laborer, without influence, to set the machinery of justice in motion is sometimes a difficult task, as is shown by the following letter from a naturalized German miner, a married man with six children, who has lost the saving of ten years in a futile effort to get compensation for injuries received while performing hazardous work for a Texas coal company.

He was first injured in 1915, he says, due to the company's neglect to furnish work to shore up his shaft. Though ill for nearly two months, however, he refused him compensation. His next injury was a severe rupture, also the fault of the company, as they had taken away his assistant, obliging him to push his heavy cart alone. In this case, they paid him for time lost, but refused to reimburse him for his operation and hospital expenses.

"I sued them," he goes on to say, "but my case was postponed by the company, which owns all the land and rights around here. This was in March. When my case came up in November, my lawyer was 10 minutes late, and it was postponed again. Before my case came up again the next March, the company treated my witnesses, Mexicans, to whisky, but they were good to me and told the truth just the same.

"The trial lasted two days and went my way, despite the boss and the company lying like troopers, until along came my doctor, who is so big a liar that he is not worth having the sun shine on him. I had fired him; so he took revenge by saying that he had wanted to operate, but I would not let him, which was untrue, for I paid only 50 cents a month just to have a doctor, and no doctor can do such things for 50 cents. Then that evening I saw the boss at the hotel with some jurymen, and the next day they sent me away like a dog.

"Again with no word for shoring, I was injured by a 30-pound stone falling on my back. After a long time in the hospital, I am still unable to work, sometimes even to walk, but the company will not nothing for me.

"I am broke like a dog. I have spent all my money, and sold my land where I wanted to found my home. My family suffer hunger in the old country while I am a cripple here, and I do not know what will become of us. My entire loss, money and work, amounts to almost \$6,000."

BANNER YEAR FOR ALL WATER SPORTS IN 1920.

Records show that 1920 was a banner year for all classes of water sports and particularly for motor boating.

In the racing field, it is said that there were more regattas and racing events than ever before, and the prospects for 1921 are that this interest will steadily increase.

During the war interest in motor boating, and in boat racing, necessarily lagged because of the more important work to be done, but since the close of the great conflict interest in the sport has steadily increased and the past season shows motor boating on a firmer and better basis than ever before.

In many western cities the revival of interest was most notable. This was true in a marked degree at Peoria, Ill., always recognized as a Western center. War interest had temporarily killed boat racing at Peoria, but in 1920 that city staged a "come back" which attracted attention all over the country. In a Labor Day regatta there were about thirty race boats most of which were owned in Peoria or at nearby towns on the Illinois River.

For 1921, according to L. E. Selby, owner of "Miss Margaret", one of the Illinois River class champions, there will be more racing boats in Peoria than in any other year since the inception of the sport. The great results accomplished during the past season has stirred the interest of all the old river fans and of many new ones, and at least two dozen racing boats are being built at the present moment for the early spring season.

Several of the Peoria leaders are arranging to attend the New York Motor Boat Show December 10th to 18th, to make arrangements to contract for the power plants for their racers, as the exhibits there will include practically all of the well known high speed engines suitable for speed craft.

There are fourteen bones in the nose.

FUEL-OIL STATION AT CUBA.

The establishment of a fuel-oil supply terminal at Punta Piedra, one-half mile from Antilla, is being contemplated by a company already established in Cuba. At that point the water has a shore depth of but 4 to 5 feet; 1,000 feet from shore the depth is 20 feet; 2,200 feet from shore it is 22 feet. The company plans to erect two storage tanks of 55,000 barrels capacity each, pump houses and a dock to be at least 1,000 feet long. Vice-Consul Buck states that, this company is already established at Havana, Matanzas, Cienfuegos, Manzanillo Nuevitas, and Cienega and Regla, the two latter places being just outside of Havana and has 55,000 barrel tanks at each point. It is said that similar tanks will be built at Santiago de Cuba.

AMERICAN COAL FOR VALPARISO.

While the Chilean Commission in New York is constantly buying coal in the United States, Mr. J. Donoso has arrived in this country recently to purchase coal in larger quantities. He also speaks of the possibility of buying sugar for that country. Chile does not produce a single grain of sugar. All the sugar used in the country is imported from Peru.

The Indian women of the Isthmus of Tehuantepec, proclaimed by many judges to be the most beautiful women in the world, add to their picturesque attractiveness by wearing whatever fortune they may possess in the form of gold coins strong about the arms and neck.

Most of the ladies in Japan smoke. They have pipes with longer stems than the men, and if one of them wishes to show a gentleman a special mark of favor she lights her pipe, take a whiff, hands it to him, and allows him to smoke.

WAREHOUSES WILL NOT CLOSE DOORS.

Owensboro, Ky., Dec. 10.—The tobacco growers of Daviess county, in their campaign for higher prices, lost their first battle today when the managers of six Owensboro loose leaf houses declined to close their floors for a period of ten days.

This action, however, appears to have made the leaders in the movement to organize the growers more determined than ever before. Meetings will be held today in every school district in Daviess county at which petitions will be circulated asking the growers to agree not to deliver any tobacco to the Owensboro market. The names of those growers not attending the meeting will be reported separately.

Reports from the school district meeting will be made at another meeting to be held in Owensboro Saturday morning.

FRITZI SCHEFF TO PLACE FLOWERS ON FOX GRAVES.

Paris, Ky., Dec. 10.—Mrs. John Fox, Jr. (Fritzi Scheff), has sent to A. E. Christman, Paris florist, mountain laurel, cedar and pine cones requesting that they be made into wreaths for three graves in the Fox lot in the cemetery.

This in commemoration of the author's birthday which is December 16.
